FOREWORD

The Department of Hospitals and Medical Care is pleased to present **Hospital Care in Alberta** for the fiscal year ended March 31, 1986. This publication, a statistical supplement to the Annual Report of the Department, details financial information and patient care services provided by hospitals and nursing homes in the province.

This year the supplement has been scaled down to reflect the most useful hospital output indicators. This new version, along with a change in the near future to an alternate data base, will facilitate a more timely publication.

We welcome your suggestions or inquiries pertaining to **Hospital Care in Alberta**. Your comments or requests for additional information may be directed to:

The statistics presented in this publication are compiled from information submitted to the Department of Hospitals and Medical Care by each general hospital, auxiliary hospital and nursing home.

Hospital operation and financial data, shown in Tables 1 to 12, are derived from the **Annual Return of Health Care Facilities - Hospitals - Part One and Two** for the year ended March 31, 1986. The data include all amendments and corrections submitted to the Department by individual hospitals on or before April 8, 1987. The financial data presented in Tables 10 to 12 are compiled and reported on an accrual basis. Tables 10, 11, and 12 contain audited operating expense data as certified and reported by the external auditor of the hospital. When interpreting the above data, reference should be made to the Glossary which contains selected definitions of terms used in the Annual Return.

Nursing home operation and patient data, shown in Tables 13 and 14, are derived mainly from nursing home claims payment statistics for the fiscal year 1985-86 and include all amendments and corrections submitted to the Department by individual nursing homes on or before April 9, 1987. The exceptions to this are columns 1 and 2 of Table 13 which are obtained from the nursing home contracts and the **Alberta Nursing Home Plan, Monthly Information Report** for the year ended March 31, 1986, respectively.

The statistical tables which follow provide detailed information on the operation and utilization of hospitals and nursing homes. In these tables, the facilities have been arranged in ascending order of approved bed complement within each facility group. An alphabetical listing for each type of facility can be found at the end of the supplement.

Note: All rates shown in the following tables have been rounded to one decimal place.
